Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Upon further review of the last office action - Final Action dated 1/21/2005, examiner noted that the new claims were not addressed and therefore, the office action dated 1/21/2005 is withdrawn. And, the new action follows:

All the amendments to the claims as filled on 7/16/2004, has been entered.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to

consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

3. Claims 15, 18, 19, 22, 45 and 48 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rhoads et al (US 6614914).

With respect to claims 15, 18-19 and 22 the rejections are respectfully maintained and incorporated herein by reference as set forth the prior office action.

With respect to the new claims 45 and 48, the limitations are similar to that as claimed in the claim 15, and therefore the claims 45 and 48 are rejected for the same reasons as set forth in the rejection of claim 15 in the prior office action.

Allowable Subject Matter

4. Claims 16-17, 20-21, 46-47 and 49-50 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments filed 7/16/2004 have been fully considered but they are not persuasive. Applicant argues that he reference fail to disclose the complex energy operator as claimed in claim 15. Examiner disagrees and would like to point out that the

Art Unit: 2623

claim limitations are given the broadest reasonable interpretations and in the instant case the "complex energy operator" is read as the watermark and the energy-encoded image is read as the watermarked image. Also, applicant argues that the reference fails to disclose the orientation angle of a local structure of a portion of an image, Examiner disagrees and would like to point out that the claim limitations are given the broadest reasonable interpretations and in the instant case, the orientation of a local structure of an image, is read as the blocks of the image "local structure of an image" and then the orientation of the image is estimated see col. 24, lines 35-40, for description.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 2623

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
